WHO MADE HER RICH-STORY OF A \$100,000 CHECK.

Williams, the Negro Murderer of Andrew H. Green, Gives His Lawyer a Long History of His Life-Lawyer Still Mysterious About a New Murder Defence.

story was current yesterday that one of the reasons why District Attorney Jerome went to the residence of Mrs. Hannah Elias, at 326 Central Park West, on Tuesday and had a personal interview with the woman was that he had heard rumors of a large amount of money having been paid to the woman by some person whose friends feared that his name would appear on the trial of Cornelius Williams for the murder of Andrew H. Green. This story took a more definite shape yesterday, when it was said that a check for \$100,000 had been paid.

Mr. Jerome declined positively yesterday to discuss this phase of the case, but he reiterated his statement of Tuesday night that his talk with Mrs. Elias confirmed him absolutely in his opinion that Mr. Green had never known the woman and that she had never so much as seen him. A firm of lawyers and one or two individuals who have become conspicuous since the murder of Mr. Green said that they had heard of the check, but could give no details of the transaction of which it was a part. When Mr. Jerome saw Mrs. Elias, on

Tuesday afternoon, she was in bed and her haggard face showed that the stories of her illness were not manufactured. She answered all questions freely and ap-parently concealed nothing. Mr. Jerome asked her about her apparent wealth and she admitted to him that while part of it was the result of fortunate speculation, a good deal of it was derived from a man in city whose friendship she has enjoyed for some years. The name of this man has not been disclosed and will not be. It has never been mentioned in connection

The negro Williams is still very cool over the murder and has shown no signs of insanity. The keepers have rather looked for a demonstration of some kind from him such as is usual when a murderer's nsel contemplates a defence of insanity, nt he has made none. CHICAGO, Nov. 18 .- Prospects for peace in the street railway strike are no brighter despite to-day's efforts of the council of mediation convention to find a common ground on which all the interests concerned might meet. Chicago City Railway officials spent three hours with Mayor Harrison and his committee, but there was no result.

A committee of five, representing all of the street railway and elevated road union employees, waited upon the Mayor to urge his good offices in getting the company to

his good offices in getting the company to consent to arbitration. This committee did not make the threat of a general and absolute tie-up of the transportation lines that their colleagues worked upon.

While olive branches were being waved in the City Hall, officials of the railway and the big detail of police were engaged in showing the public that car service could be resumed. Wentworth avenue trolley cars, provided with police guards, traversed the line with few displays of vandalism. Cable trains on the Cottage Grove avenue line made almost schedule time, though they foiled a few blockades made by obstreperous teamsters and an attempt to wreck perous teamsters and an attempt to wreck

GOV. ODELL ACTS WITHOUT CON-SULTING PROSECUTOR.

Seven Years' Sentence of Caldwell, Alias Galbert, Cut Down to 3 Months-This Was Done on Oct. 28-District Attorney's Office Heard of It Only Yesterday.

Gov. Odell has pardoned George "Galbert," who is said to be a grandson of a Kentucky Governor, who was convicted last summer before Recorder Goff in the General Sessions after his arrest in the Ariston Bath raid, on evidence such that he was sentenced to State prison, along with Walter Bennett, for seven years

and two months. The usual course of procedure was not followed and although the sentence was commuted on Oct. 28, no announcement was made of it. The District Attorney did not hear of it until last night, when a Sun reporter informed Assistant District Attorney Ely, the prosecutor.

Although "Galbert" on the witness stand told what his real name was, he went to trial under the name of Galbert and was sentenced under that name.

"I had him give his real name," said Mr. Ely last night, "because I thought that the fact that he had given an assumed name upon his arrest and had stuck to it hroughout subsequent proceedings, indicated that he was a guilty man. Promi-nent New Yorkers called on me to intercede for him. One man connected with a downtown law firm of prominence asked me to let up on him. I replied that it was wrong thing for him to ask."

"It is said that John G. Carlisle came to nquire about the case." inquire about the case."

"I saw him in the corridors. When he learned that 'Galbert's' companion had pleaded guilty, I guess he abandoned any idea of interceding. I shall not tell you Galbert's name, even though it is of court record. I understand that he is a grandson of a Kentucky Governor."

Stepagrapher Frank Beard, who re-Stenographer Frank Beard, who re-ported the Galbert trial, said last night that Galbert said in court that his name was

Galbert said in court that his name was George Caldwell.

The news of the commutation of the sentence reached New York through a member of the law firm of Sullivan, Goldsmith & Engel, who heard it at Sing Sing while visiting a client. When Assistant District Attorney Nett was informed of it he said:

District Attorney Nott was informed of it he said:

"I understand that Gov. Odell is also determined to pardon Frank S. Weller, secretary and treasurer of the Horse Shoe Copper Mining Company. That is the concern with which Larry Summerfield was connected, and in connection with which he was convicted recently before Justice Davis in the Criminal Branch of the Supreme Court and was sent to Sing Sing. Weller was the guiltiest man of the whole crew. He was convicted months ago, and is now out of jail on a certificate of reasonable doubt. Mr. Buchanan, one of the victims of the Horse Shoe Copper Mining Company of the Horse Shoe Copper Mining Company swindle, says that he learned from the Governor the other day that Weller is to be pardoned if the Appellate Division affirms his conviction. The rumor that Gov. Odell intended to pardon Weller reached this office last spring about the time that we were also informed that he would that we were also informed that he would not commute the sentence of Syndicate Miller, whose testimony enabled us to con-vict the long-immune Col. Bob Ammon. Miller, whose testimony enabled as of convictivity the long-immune Col. Bob Ammon. Assistant District Attorney Train went to Buffalo and met Gov. Odell there, and represented the Weller case to him in its true colors. Gov. Odell didn't say what he would do. Subsequently, Weller got out on a certificate of reasonable doubt issued by Supreme Court Justice Blanchard. His counsel had agreed not to apply for such a certificate while his case was pending before the Appellate Division, providing that we agreed not to prosecute him on two indictments we have up our sleeves. Then they sprung an application on us and would not consent to an adjournment. Justice Blanchard granted the certificate, and Weller is at liberty. I think we'll try him on the indictments as yet untried."

"Galbert" reached Sing Sing on July 31, and therefore had served about three months when he was released on Oct. 28.

When the Chinaman Ran Away With the French Woman and the Policeman Went Away to the Fire That Scorohed Sophia-This Is Really a Fire Story.

When a Chinese laundryman runs away with a French woman without paying his rent and a Russian landlord has a Jewish marshal put the laundry out on the sidewalk just a short half block from Cherry street, and when the Irish policeman who was guarding the stuff is called away by a fire in the bathroom of a Roumanian, there is no reason in the world why the entire Cherry Hill gang shouldn't have clean

I greatly wish it were in my power to be present at the installation of the Rev. Dr. Josiah Strong as first president of the American Institute of Social Service. This institute is fitted to render a great and peculiar service, not merely to this country, but to all countries. Apparently it is proving to be the beginning of a world movement and is being recognized by the best men of many different countries as a necessity in each and all of these countries in order to facilitate the readjustment of social relations to the new conditions created by the modern industrial revolution. In England, Russia, Italy, Japan and Sweden steps have been taken to organize institutes along the lines of Paris has been doing a great work along similar though not identical lines.

The possibilities of usefulness for the institute are well nigh boundless. I most earnestly hope that all philanthropists will, by personal work, and where they can also with their purses, aid in pushing it forward and thereby hasten the progress of civilization and the uplifting of humanity.

With all good wishes, believe me. Sincerely yours.

FIRE ENGINE WHEEL HIT HIM. Old Man Hurt in Odd Aceldent-Fire Set

by Candle Near & Corpsc. A candle at the head of Peter Trier's body which lay in the front room of his apartments at 104 East 116th street burned too low yesterday and set fire to the draperies in the room, causing plenty of excitement among the tenants and the family of the dead man. The fire was put out by Edward J. Spencer, the engineer of the building, before much damage was done. Trier's body was scorched around the face

SAYS HE'S GRAFTED THE EAR.

DID IT IN PHILADELPHIA, BUT WON'T TELL WHERE.

New York Physician's Story of a Rich Miner Minus One Ear and a German Restaurant Keeper With One to Sell for \$5.000-Refuses to Give Details.

PHILADELPHIA, Nov. 18 .- According to Dr. A. L. Nelden of New York, somewhere in Philadelphia, but where he will not say in a private sanitarium, lie a millionaire miner from the West and a German restaurant-keeper from New York. They are held together by one ear, he says. restaurant-keeper gets \$5,000 for the inconvenience. When they arise, the doctor says, twelve days from now, the miner will be the only one to have the ear.

Who his patients are Dr. Nelden will not say. Neither will he tell what sanitarium they are in. Both are there under assumed names, anyway, he says. The millionaire was minus an ear. He had lost it while making his fortune out West. He wore his hair so as to hide its absence. He came East and met a New York woman. They loved and would wed. The woman ob-jected to the paucity of ear. Hence the

Dr. Nelden secured the offer of a good ear for him by advertising. The doctor says he performed the operation of graft-ing in Philadelphia, because District Attorney Jerome told him he neight be prosecuted if he did it in New York. Philadelphia is wide open, he understood, to ear grafters. So he came to Philadelphia. District Attorney Bell and his assistants assured him that he was safe and would not be prosecuted. prosecuted. The operation was performed, Dr. Nelden asserts, last night. The patients lie with heads together, but with feet pointing in

opposite directions.
The upper half of the German's ear was out off, with about four inches of skin.
This flap and ear were then twisted around and clapped to the prepared raw surface of the place where the millionaire's ear should be and fastened there with long silver needles. As soon as circulation is estab-lished between the old ear and its new owner, it will be cut loose the remainder

of the way.
"Neither of my patients knows the other by name," said Dr. Nelden. "They are not in a position to know and don't want to anyway."

If the ear fails to knit within twelve days, there will be two one-eared men instead

LEAKY METER IMPERILS LIVES

Six of a Family Made Sick-Two Are to the Hospital. Maggie Regan, 20 years old, and Ida Fitz gerald, 3 years old, her niece, both of 78 North Portland avenue, Brooklyn, were removed to the Cumberland Street Hospital yesterday morning suffering from gas asphyxiation. Four others in the family were made very sick and needed the atten-

tion of the ambulance surgeon, but were tion of the ambulance surgeon, but were not removed.

According to Daniel Regan, head of the family, a leaky gas meter was the cause of the trouble. He told the police that he had moved into the house on Friday last. A man had been there Tuesday morning to put in a gas meter. Soon after he had gone the smell of escaping gas became nauseating and the family was compelled to sit with windows and doors open.

At 6 o'clock the little girl, Ida Fitzgerald, was put to bed. The rest of the family retired about 10 o'clock, leaving the windows open. The rooms became filled with

DR. YAN DYKE'S YEXED MAID.

SHE WANTS HIM TO PAY HER CARFARE BACK TO TOWN.

Can't Stand It Even Until Her Month Is Out and Writes to the Legal Ald Soclety to Know About Her Right to

a Ticket to New York and a Reference. PRINCETON, N. J., Nov. 18.-Anna Christiinsen has started a new controversy, in which all the kitchens of the scholastic and library quarter are interested Anna is a servant in the employ of the Rev. Dr. Henry van Dyke, but she doesn't want to be. She wants to go right back to New York, but can't agree with the doctor as to how much money she should get from

him before going away. She wrote to the New York Legal Aid Society to get a ruling against the doctor and for information "concerning the laws of domestic life." That society replied that it had no jurisdiction over Princeton, and referred her to the New Jersey Legal Aid Society at Newark.

The letter of the vexed housemaid was as follows:

I write to you in order to get some information concerning the rules and laws of domestic life. Please write and tell me if a lady can compel you to stop in a place longer than a week from the time you give in your notice, whether your month is up or not? Let me also know if a lady don't have to give you a reference providing your con-

duct has been good? And still another thing, if when you engage in the city to go to the country your fare is not supposed to be paid back to the city again, the same as it is paid for coming out, even if you leave on your own accord?

MISS A. CHEISTIANSEN. Care of Henry van Dyke, Princeton, M. J

NEWARK, Nov. 18 .- Dr. van Dyke's servant has not yet appealed to the New Jersey Legal Aid Society for advice. There is no law in New Jersey which compels an employer to pay the fare of a departing servant back to New York, nor even to

Philadelphia. There is no law to compel the employer to furnish a certificate of good character. The answer to the servant's first question depends on whether she was hired by the

week or by the month. BUSINESS FOR TAMMANY.

The New Administration Must Award the Moving Platform Franchise. The Schmidt-Gallatin syndicate, have secured the consent of the Rapid Transit Commission to build a moving platform from the Battery to the new Williamsburg bridge, has submitted to the Mayor a proposal to pay \$135,000 a year for the right to

set aside for bicycle pathways. Corporation Counsel Rives ruled yesterday that to install its system on the bridge, the syndicate must first apply to the Aldermen for a franchise, and, that the Board of Estimate must then decide upon the com-pensation to be paid to the city.

This means that the Schmidt-Gallatin
